This screenshot shows a review comment from Reviewer B. The comment states that revisions are required and provides a recommendation. The review text is partially obscured by a horizontal line.

Reviewer B:
revisions required
Recommendation: Revisions Required

Reviewer E:
Title: has been in accordance with the topic and scope of the journal,
Abstract: is appropriate and complete with abstract components preliminary
Introduction: The background was revised as an introduction and added about the novelty of this research and whether the contribution of the research results in general or limited in Indonesia for its implementation?
Method:
Check again the sentence [14] in the research design paragraph
Added the name of the hospital and the city where it is located.

This screenshot shows a review comment from Reviewer E. The comment provides detailed feedback on the manuscript, covering the title, abstract, introduction, method, result, and conclusion. It lists specific areas for revision, such as sentence numbering and table formatting.

Reviewer E:
Title: has been in accordance with the topic and scope of the journal,
Abstract: is appropriate and complete with abstract components preliminary
Introduction: The background was revised as an introduction and added about the novelty of this research and whether the contribution of the research results in general or limited in Indonesia for its implementation?
Method:
Check again the sentence [14] in the research design paragraph
Added the name of the hospital and the city where it is located.
Added the name of the institution of the Ethics Commission that gave the legality of the letter or the number of the ethical clearance letter.
Result: it is in accordance with the objectives and supports the discussion
Writing table 1 in accordance with the guidelines for writing a table.
Discussion: according to research results
Check the citation writing according to the numbering
Conclusion: revised to suit the research objective
Review results:

Gmail interface showing a document titled "Introduction: The background was revised as an introduction and added about the novelty of this research and whether the contribution of the research results in general or limited in Indonesia for its implementation?".

Method:

- Check again the sentence [14] in the research design paragraph
- Added the name of the hospital and the city where it is located.
- Added the name of the institution of the Ethics Commission that gave the legality of the letter or the number of the ethical clearance letter.

Result: it is in accordance with the objectives and supports the discussion

Writing table 1 in accordance with the guidelines for writing a table.

Discussion: according to research results

Check the citation writing according to the numbering

Conclusion: revised to suit the research objective

Review results:

The author can revise the abstract according to the notes in the review column and check for grammatical errors (highlighted in yellow) and revise the sentences to reduce similarity (green color).

Recommendation: Revisions Required
